As the population of older adults continues to grow, the need for advanced practice nurses (APNs) in the field of geriatric nursing has never been greater. Advanced Practice Nursing In The Care Of Older Adults is the definitive guide for nurses seeking to provide exceptional care to this growing population.

Written by a team of experienced APNs, this book provides a comprehensive overview of the unique challenges and opportunities in the field of geriatric nursing. From health assessment and diagnosis to treatment and management, Advanced Practice Nursing In The Care Of Older Adults covers all aspects of caring for older adults.

Key Features:

- **Evidence-based practices:** Learn the latest evidence-based practices for the care of older adults.

- **Holistic care:** Gain an understanding of the importance of holistic care for older adults, addressing their physical, emotional, and social needs.
- **Interdisciplinary collaboration:** Explore the role of APNs in interdisciplinary teams, collaborating with other healthcare professionals to provide comprehensive care.
- **Ethical considerations:** Address the ethical challenges that arise in the care of older adults, such as end-of-life care and decision-making.

Advanced Practice Nursing In The Care Of Older Adults is an essential resource for APNs, geriatric nurse practitioners, clinical nurse specialists, and all nurses seeking to provide exceptional care to older adults.
