From making your own slime to creating a lava lamp, **Amazing Mostly Edible Science** has something for everyone. And because the experiments are mostly edible, you don't have to worry about any dangerous chemicals or cleanup.

Here are just a few of the amazing experiments you'll find in this book:

- Make your own slime using glue, water, and food coloring.

- Create a lava lamp using vegetable oil, water, and food coloring.
- Build a volcano using baking soda, vinegar, and food coloring.
- Make a rainbow using sugar, water, and food coloring.
- Grow your own crystals using salt, water, and food coloring.

**Amazing Mostly Edible Science** is the perfect book for kids who love to learn about science. It's also a great way to get kids excited about cooking and eating healthy foods.
