

How Acton Academy Turns Learning Upside Down

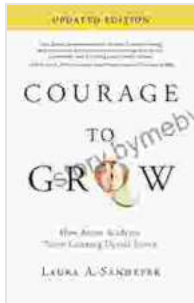

Acton Academy is a network of learner-driven schools that is turning learning upside down. By putting the learner at the center of the learning process, Acton Academy schools are creating a new model of education that is more engaging, effective, and personalized than traditional schooling.

The Acton Academy model is based on the belief that all children are natural learners. Given the right environment and support, children can learn anything they set their minds to. Acton Academy schools provide this environment and support by:

- **Putting the learner at the center of the learning process.** In traditional schools, the teacher is the center of the learning process. The teacher decides what students will learn, how they will learn it, and when they will learn it. In Acton Academy schools, the learner is the center of the learning process. Learners decide what they want to learn, how they want to learn it, and when they want to learn it.
- **Creating a learner-driven environment.** Acton Academy schools create a learner-driven environment by providing learners with the resources and support they need to learn. These resources include a variety of learning materials, a supportive community of learners and mentors, and access to technology.
- **Supporting learners on their individual learning journeys.** Acton Academy schools believe that every learner is unique and has their

own individual learning journey. Acton Academy teachers support learners on their individual learning journeys by providing them with individualized guidance and support.

The Acton Academy model has a number of benefits for learners. These benefits include:

Courage to Grow: How Acton Academy Turns Learning Upside Down by Laura Sandefer

- **Increased engagement.** Learners are more engaged in their learning when they are at the center of the learning process. They are more likely to be motivated to learn when they are able to choose what they want to learn and how they want to learn it.
- **Improved effectiveness.** Learners learn more effectively when they are able to learn at their own pace and in their own way. They are more likely to retain information when they are able to learn it in a way that is meaningful to them.

- **Greater personalization.** Acton Academy schools provide learners with a personalized learning experience. Learners are able to choose from a variety of learning opportunities and activities that are tailored to their individual interests and needs.

Acton Academy is transforming the way children learn by creating a new model of education that is more engaging, effective, and personalized than traditional schooling. Acton Academy schools are proving that it is possible to create a learning environment where all children can thrive.

If you are looking for a new and innovative way to educate your child, I encourage you to learn more about Acton Academy. Acton Academy schools are located all over the world, and there is sure to be a school near you.
