Print length: 48 pages

Mae Jemison, the first African American woman in space, and **Laurie Calkhoven**, a pioneering biochemist, are two extraordinary women who have shattered barriers and made significant contributions to the field of science. Their stories are an inspiration to anyone who dreams of pursuing a career in STEM (science, technology, engineering, and mathematics).

In this captivating book, we delve into the lives of these two remarkable women. We learn about their childhoods, their education, and their early careers. We witness their struggles and triumphs, and we gain insights into their motivations and their unwavering dedication to their work.

Mae Jemison is a true pioneer. She was the first African American woman to earn a doctorate in engineering, and she was the first African American woman to be admitted to the NASA astronaut training program. She flew into space aboard the Space Shuttle Endeavour in 1992, and she served as a mission specialist on the crew.

Laurie Calkhoven is a world-renowned biochemist. She is best known for her work on the human genome project, and she has made significant contributions to our understanding of genetics and disease. She is currently a professor at the University of California, Berkeley, and she continues to conduct groundbreaking research.

The stories of Mae Jemison and Laurie Calkhoven are an inspiration to us all. They show us that anything is possible if we set our minds to it. They also remind us of the importance of diversity in science. When we have a diversity of perspectives, we can solve problems that we would never be able to solve on our own.

If you are interested in learning more about the lives of these two extraordinary women, I encourage you to read this book. It is a truly inspiring and educational read.
