Patrick Grant is a British fashion designer who is best known for his work as the creative director of Norton & Sons, a Savile Row tailoring house. Grant is known for his innovative approach to tailoring, and he often uses unconventional fabrics and techniques in his designs. He is also a passionate advocate for British manufacturing, and he is committed to using traditional skills and techniques in his work.

Grant was born in Scotland in 1968. He studied fashion design at the Royal College of Art in London, and after graduating he worked for a number of fashion houses, including Alexander McQueen and Givenchy. In 2004, he was appointed creative director of Norton & Sons.

Norton & Sons is one of the oldest and most prestigious tailoring houses on Savile Row. The company was founded in 1821, and it has dressed some of the world's most famous men, including Winston Churchill, Cary Grant, and David Beckham. Grant has brought a new level of creativity and innovation to Norton & Sons, while still respecting the company's traditions.

Grant's designs are often characterized by their use of unconventional fabrics and techniques. He has used everything from tweed to denim to create his suits, and he is not afraid to experiment with new ways of tailoring. Grant's suits are also known for their impeccable fit and attention to detail.

Grant is a passionate advocate for British manufacturing. He believes that British tailors are the best in the world, and he is committed to using traditional skills and techniques in his work. Grant also believes that it is important to support British businesses, and he is a vocal supporter of the Made in Britain campaign.

Grant is a regular guest on television and radio shows, and he has written a number of articles about tailoring and fashion. He is also the author of the book "The Tailoring Book: The Classic Guide to Sewing the Perfect Suit."

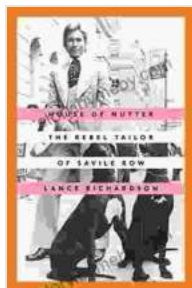

Grant is a respected figure in the fashion world, and he is known for his innovative approach to tailoring. He is a passionate advocate for British

manufacturing, and he is committed to using traditional skills and techniques in his work.
