Marcus Pfeiffer's latest novel, *Sister Sister*, is a powerful and moving exploration of the complexities of family, trauma, and redemption. Through the eyes of two sisters, Pfeiffer paints a vivid and haunting portrait of the lasting effects of childhood abuse and the search for healing.

The novel opens with the two sisters, Sarah and Claire, as adults. Sarah is a successful lawyer, married with two children. Claire is a struggling artist, living in a run-down apartment and haunted by the memories of her past.

As the novel unfolds, we learn about the sisters' childhood. They were raised by a violent and abusive father. Sarah was the golden child, while Claire was the scapegoat. Sarah was constantly praised and rewarded, while Claire was belittled and punished.

The abuse had a profound impact on both sisters. Sarah developed a deep-seated sense of guilt and shame. She felt responsible for her father's violence, and she believed that she deserved to be punished.

Claire, on the other hand, developed a deep-seated sense of anger and resentment. She hated her father for what he had done to her, and she hated her sister for not protecting her.

As adults, the sisters are still struggling with the effects of their childhood trauma. Sarah is unable to fully enjoy her life because she is constantly haunted by the memories of her past. Claire is unable to form healthy relationships because she is always expecting to be hurt.

However, the sisters also have a deep love for each other. They are the only people who truly understand what the other has been through. And despite their differences, they are determined to support each other and help each other heal.

Sister Sister is a beautifully written and emotionally resonant novel. Pfeiffer does a masterful job of capturing the complexities of family relationships and the lasting effects of trauma. The novel is both heartbreaking and hopeful, and it is sure to stay with readers long after they finish it.

Here are a few excerpts from the novel:

““Sarah was the golden child, the one who could do no wrong. Claire was the scapegoat, the one who was always getting into trouble.”

"Sarah felt responsible for her father's violence. She believed that she deserved to be punished."

"Claire hated her father for what he had done to her, and she hated her sister for not protecting her."

"Despite their differences, the sisters had a deep love for each other. They were the only people who truly understood what the other had been through."

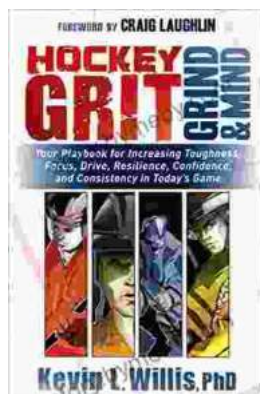

If you are looking for a powerful and moving novel that will stay with you long after you finish it, I highly recommend Sister Sister.
